

TS9 TRANSFILL SYSTEMS FEATURE:

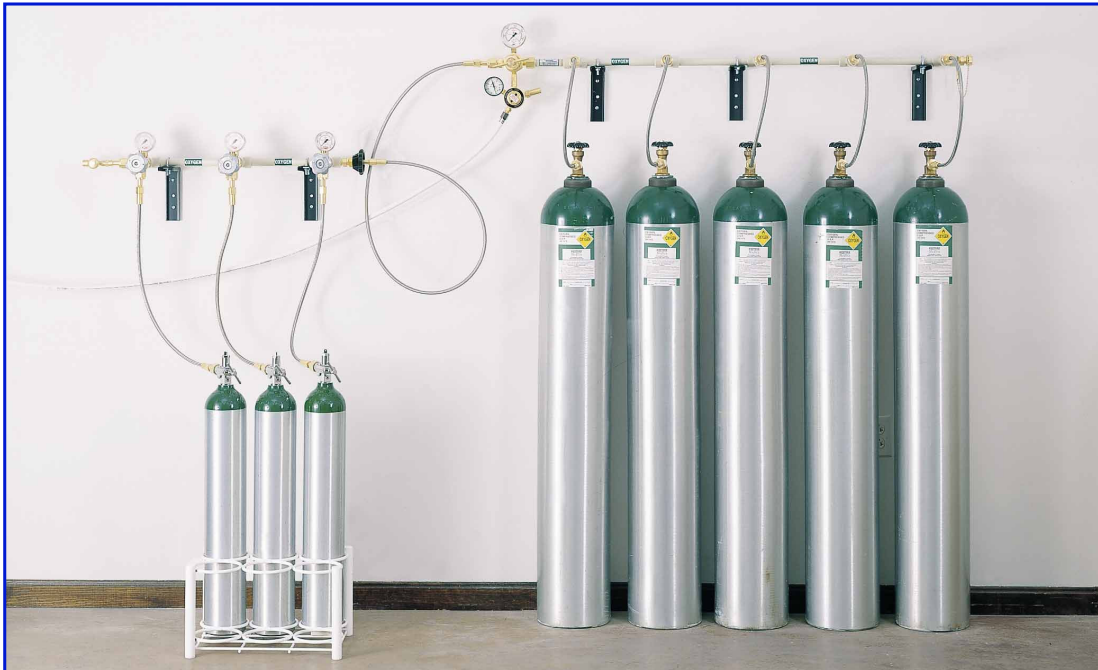

- Cost effective and safe filling of high pressure aluminum or steel oxygen cylinders up to 2000 psi
- A wide range of transfill system configurations
- The ability to upgrade systems as cylinder fill requirements increase
- Detailed instructions for installation and operation including documentation for FDA compliance

TS9-10-12PK

The TS9-10-12PK is a complete system designed for transfilling 12 cylinders at a time from a supply bank of 10 large cylinders. This system includes:

WHSV-9-5ER	5 Station Supply Header w/Check Valves
TSS-9-5M	5 Station Supply Header Extension w/Check Valves
PF-63CV-24	24" Supply Side Pigtails w/Check Valves
MCP325	12 Cylinder Manifold Cart
TSREG-9C	Pressure Control Regulator
PF-63HT-60	60" Supply-To-Fill Pigtail
VV200	Dual Vacuum Regulator Assembly
TS9-500PK	Transfill Accessories Kit

TS9-5-3PK

The TS9-5-3PK is a complete starter system designed for transfilling 3 cylinders at a time from a supply bank of 5 large cylinders. This system includes:

TSS-9-5	Supply Side Header w/Check Valves
TSF-9-3	Fill Side Header w/Contents Gauges, Restricters and Shut-Off Valves at Fill Ports
PF-63CV-24	24" Supply Side Pigtailed w/Check Valves
TSREG-9A	Pressure Control Regulator Assembly
PF-63-870-24	24" Fill Side Pigtailed
PF-63HT-60	60" Supply-To-Fill Pigtail
VV100	Vacuum Regulator
TS9-PK	Transfill Accessories Kit
PX-1025	Cylinder Rack (optional)

TS9-500PK AND TS9-PK

Transfill Accessories Kits Include:

TR-104	Oxygen Analyzer
MCP511	Vacuum Pump for TS9-500PK Kit System Only
CS-PK2	Vacuum Pump for TS9-PK Kit Only
MSH15580	Nitrogen Calibration Regulator for TR-104
MSH15540	Oxygen Calibration Regulator for TR-104
G-544A	Contents Test Gauge
MST-1	Aluminum Cylinder Thermometer
CLM-1	Lot Number Label Gun
CL-1	Lot Number Labels (1250/Roll)
A80024	Oxygen Cylinder Labels
A60019	Full, In-Use and Empty Tags
MTT-1	Teflon Thread Tape 1/4" x 520" Roll
MPV-4027	Post Valve Seals
