

A HERITAGE YOU CAN TRUST

55 YEARS OF EXPERIENCE IN EVERY OUTLET

©2007 Western Innovator

Western Medical Gas Wall Outlets represent everything you'd expect from a long-time supplier of high pressure medical gas equipment: precision and reliability.

Whether it's for an Ohmeda®, Chemetron®, Puritan-Bennett® or DISS-style connector, you can be certain with a Western outlet. After all, we're no strangers to the hospital environment, having manufactured regulators, flowmeters, quick connects, fittings and gauges, manifolds and transfilling equipment for decades.

Tru-Fit™
Medical Gas Wall Outlets

Tru-Fit™ Medical Gas Wall Outlets

- Universal, gas-specific rough-in assemblies
- 360° swivel inlet piping for ease of installation
- Compatible with Ohmeda®, Chemetron®, Puritan-Bennett® or DISS-style connectors
- Color coded front plate for ease of gas identification
- Pin indexed to prevent interchangeability of gas service
- Each outlet is pressure tested and cleaned for medical gas service
- Less than 5 psi (21 kPa) pressure drop through the outlet @ 100 l/min and 50 psig (345 kPa) inlet pressure
- Gas specific back bodies can accept either Quick Connects or DISS front adapters (*can be interchanged at any time*)
- Outlets can be adjusted from 1/2" up to 1" wall thickness

HOW TO ORDER A WESTERN MEDICAL GAS WALL OUTLET: MWS-x-y-z

P/N Prefix	x (Quick Connect)	y (Gas Service)	z (Configuration)
MWS -	0 = none (rough in only)	1 = Vacuum	0 = none (latch only)
	1 = Ohmeda	2 = Medical Air	1 = 90 degree tubing
	2 = Chemetron	3 = WAGD	2 = 180 degree tubing
	3 = Puritan-Bennett	4 = Carbon Dioxide	3 = Hose Barb
	4 = DISS	7 = Nitrogen	
		8 = Nitrous Oxide	
		9 = Oxygen	

Example - To order a nitrogen wall outlet in DISS, request **P/N = MWS-4-7-1**
